LIMITORQUE TECHNICAL UPDATE #04-01

Subject: Crompton MOV LONG LIFE / Exxon Nebula EP compatibility

Reference: EPRI Report 1003483 & Limitorque Technical Update 02-01

Based upon the test data and conclusions presented in EPRI Report 1003483, Limitorque authorizes the mixing of the subject lubricants in the actuator main gear box. Limitorque Technical Update 02-01 is applicable [e.g. environmental qualification is not invalidated] to the mixture. NLGI Grades 0 & 1 may also be mixed with no adverse effects.

Appreciation is extended to EPRI for allowing Limitorque to review the results of their work effort.
